- Learn about what happens when animals grow and how they change.
- Try your best to finish the levels as fast as possible, and get all 3 stars on each level to get on the leaderboard
- **TOP 3 WINNERS WILL WIN TICKETS!**

# HOW TO GET TICKETS

**5X** Participate in a Zoom Tournament

**15X** Win 3rd Place in a Tournament

**20X** Win 2nd Place in a Tournament

**25X** Win 1st Place in a Tournament

# COLLECT TICKETS TO WIN ROBUX

5 tickets to get

**10 ROBUX**

10 tickets to get

**50 ROBUX**

20 tickets to get

**100 ROBUX**

**You have until the end of August to collect tickets!**

# FREQUENTLY ASKED QUESTIONS

## When can I get Robux?

Whenever you've collected a certain amount of tickets, you can exchange it for 10, 50, or 100 robux.

Message us on WhatsApp at **8753 2961** to redeem your robux!

## Where can I see how many tickets I have collected so far?

To see how many tickets you have collected so far, please message us on WhatsApp at **8753 2961** and we will provide you with a link to view your tickets.

## Do the Tickets expire?

Yes. Please note that tickets for May tournaments will expire on **August 31, 2023**. Be sure to redeem them for rewards before the tournament ends.

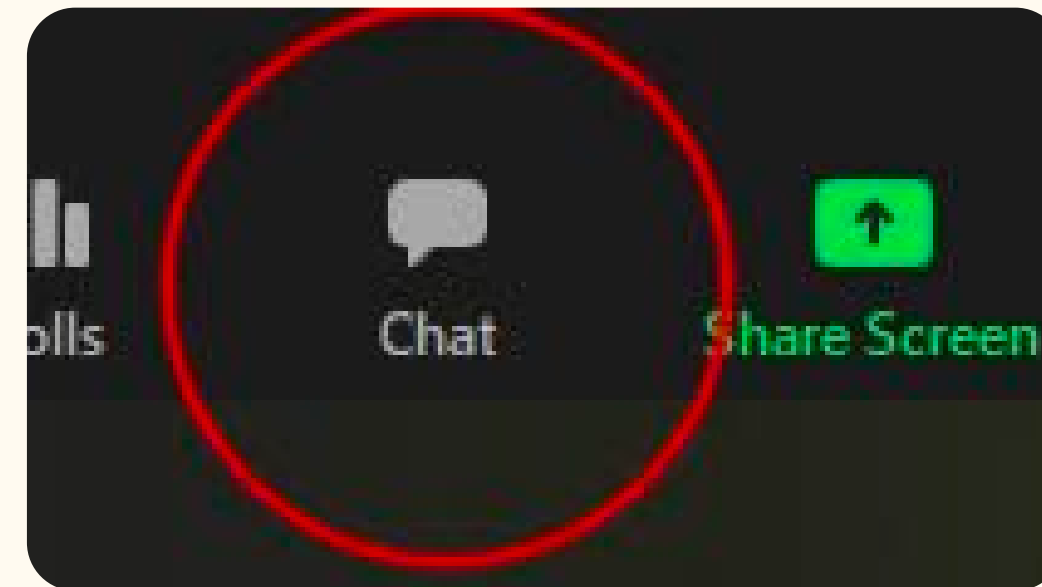

# BEFORE WE START

**SEND YOUR NAME AND  
ROBLOX USERNAME IN  
THE ZOOM CHAT**

**Name - Roblox username**

**e.g. Joe Tan -  
ghroblox2236**

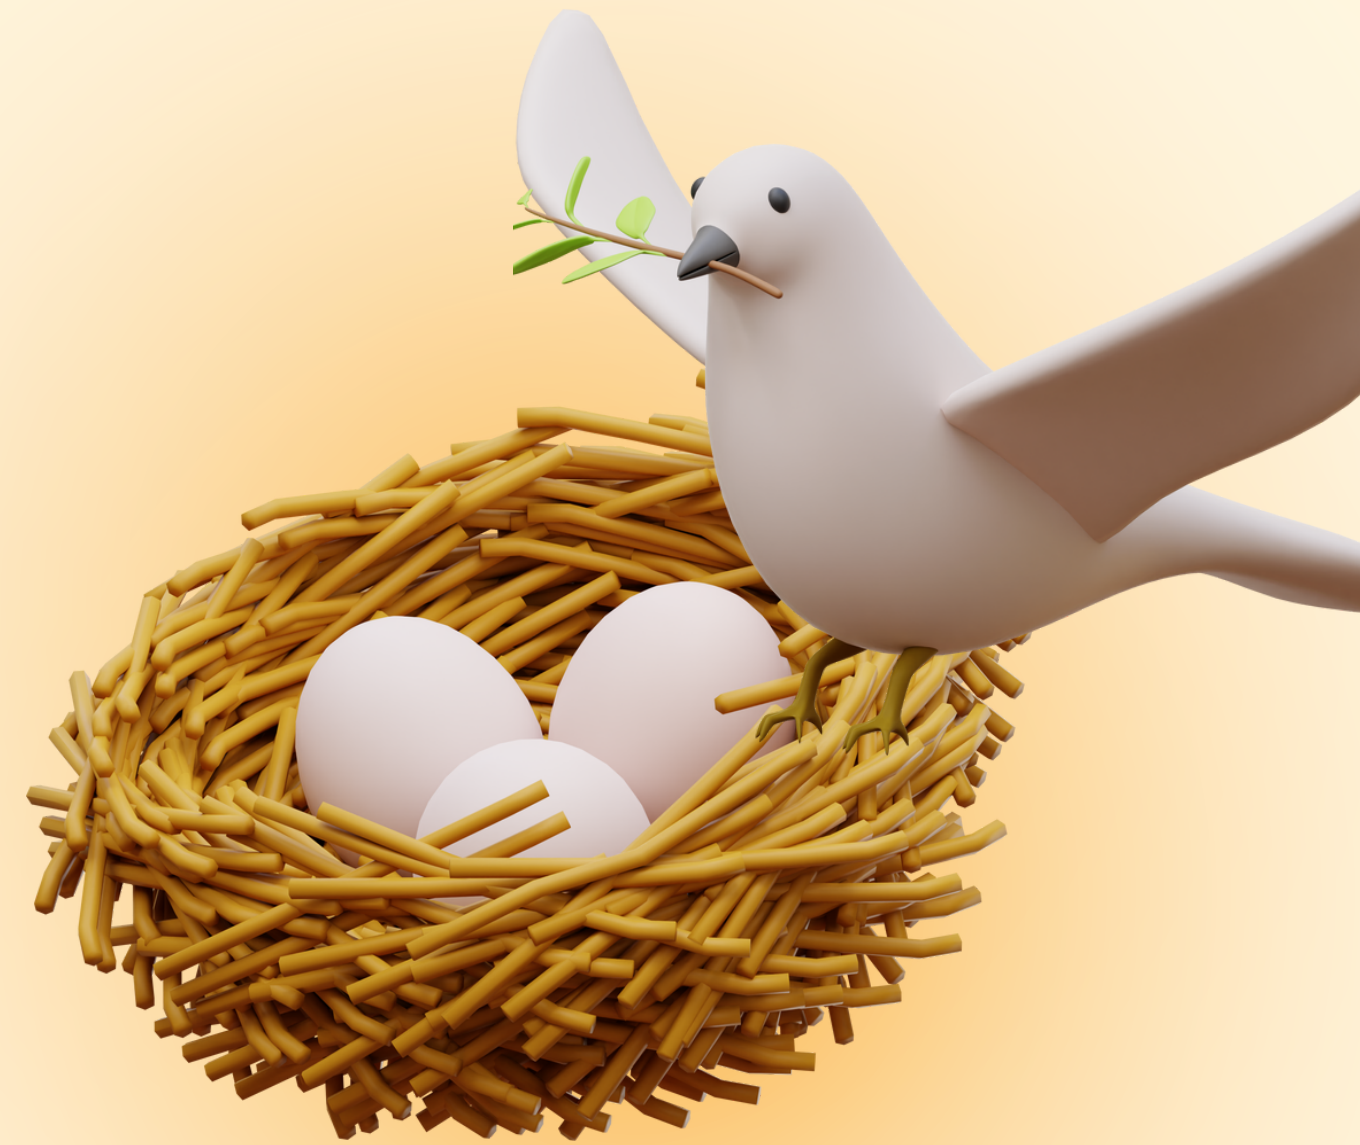

# RECAP SCIENCE TOPIC

Are you ready to recap the  
science topic of  
**Life Cycle of Animals**  
and get ready for the game?

# Life Cycle of Animals

## What is a life cycle?

- All living things, such as plants, animals, and bacteria, go through **changes** throughout their lives.
- The different stages of the life cycle are: **birth, growth, development,** and **reproduction.**

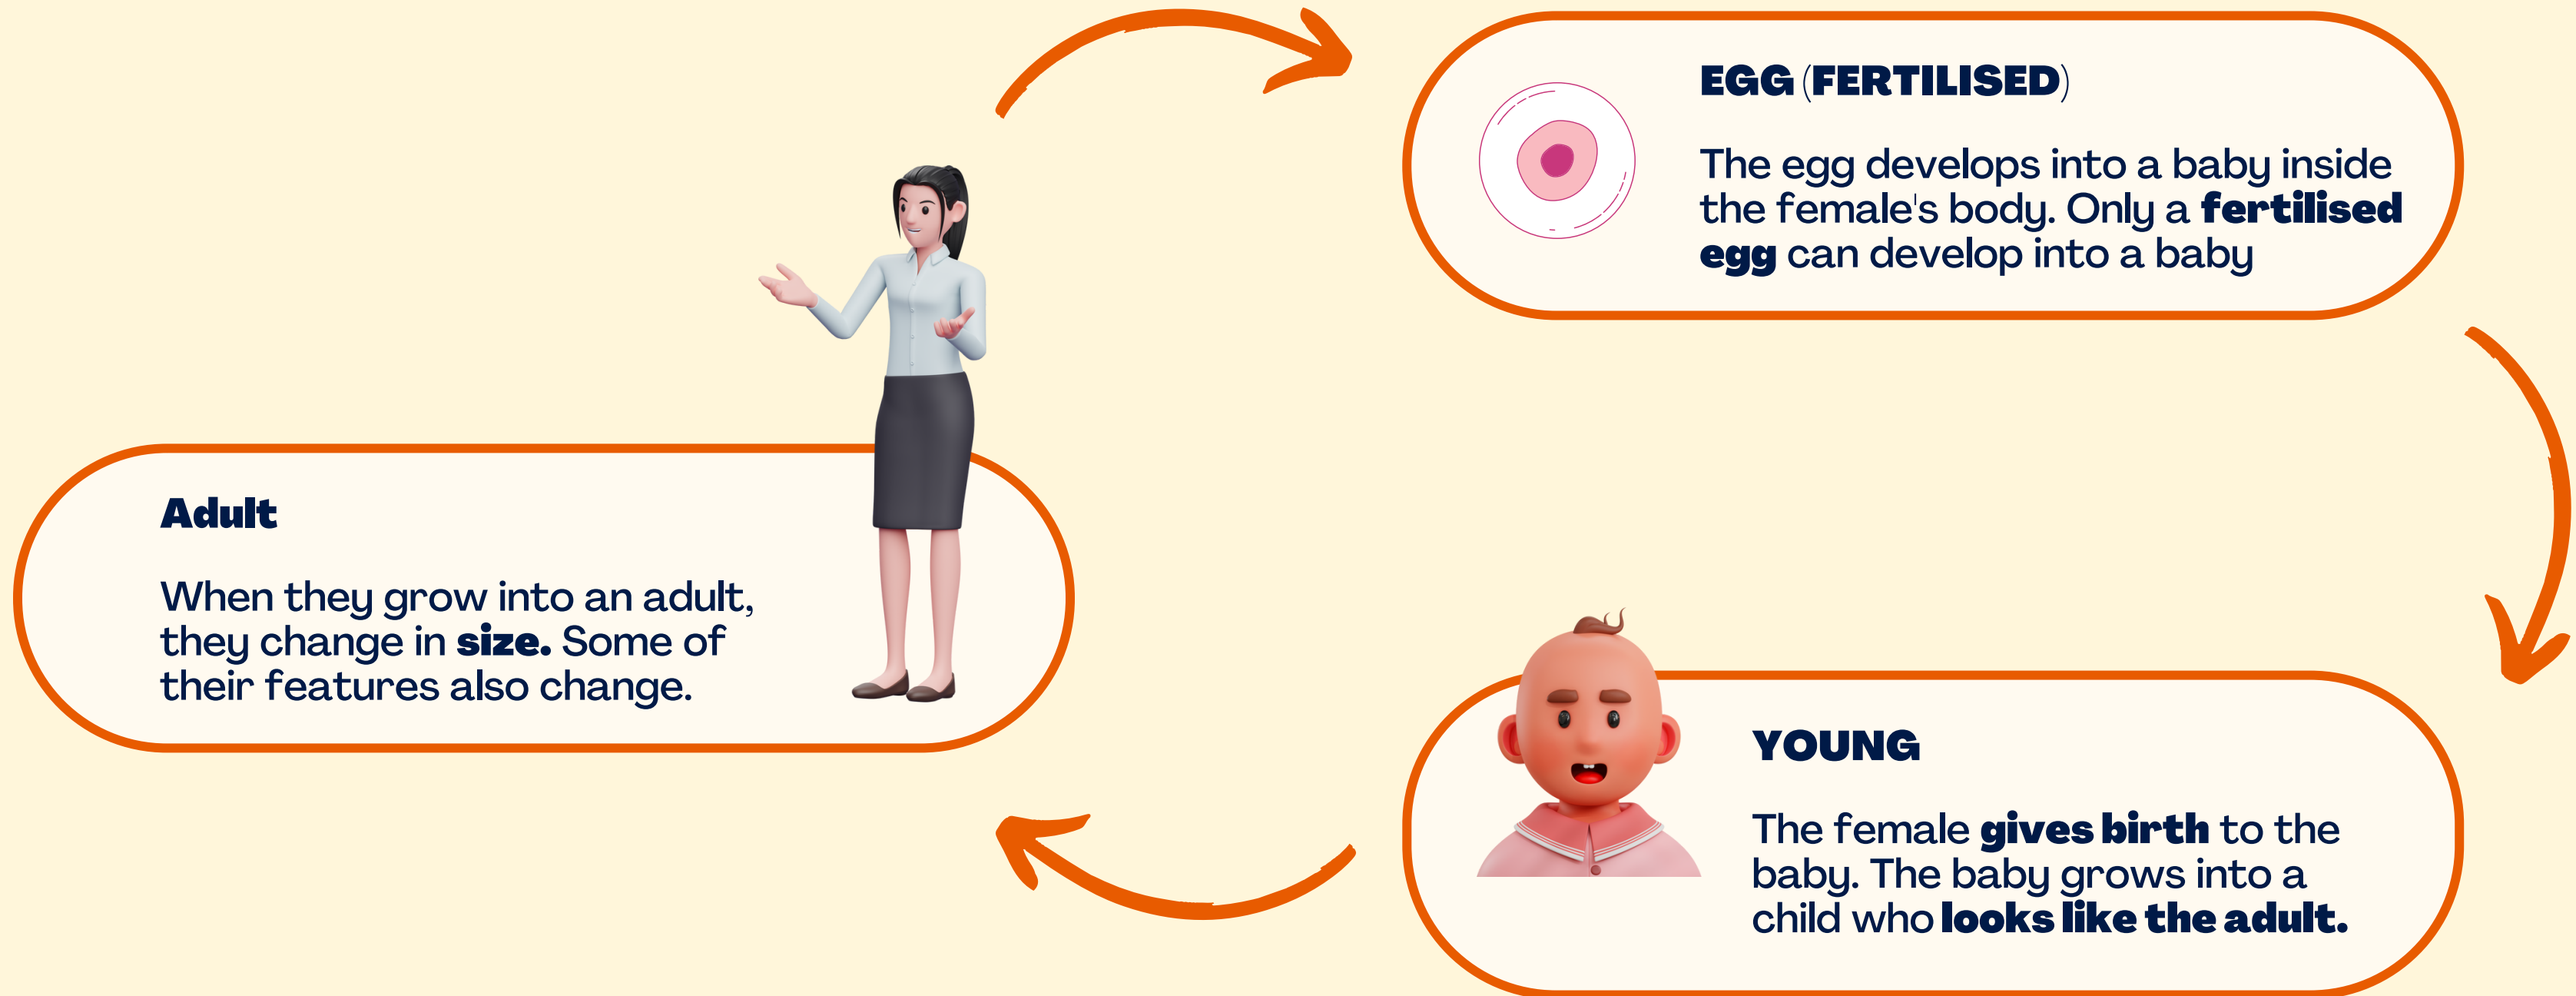

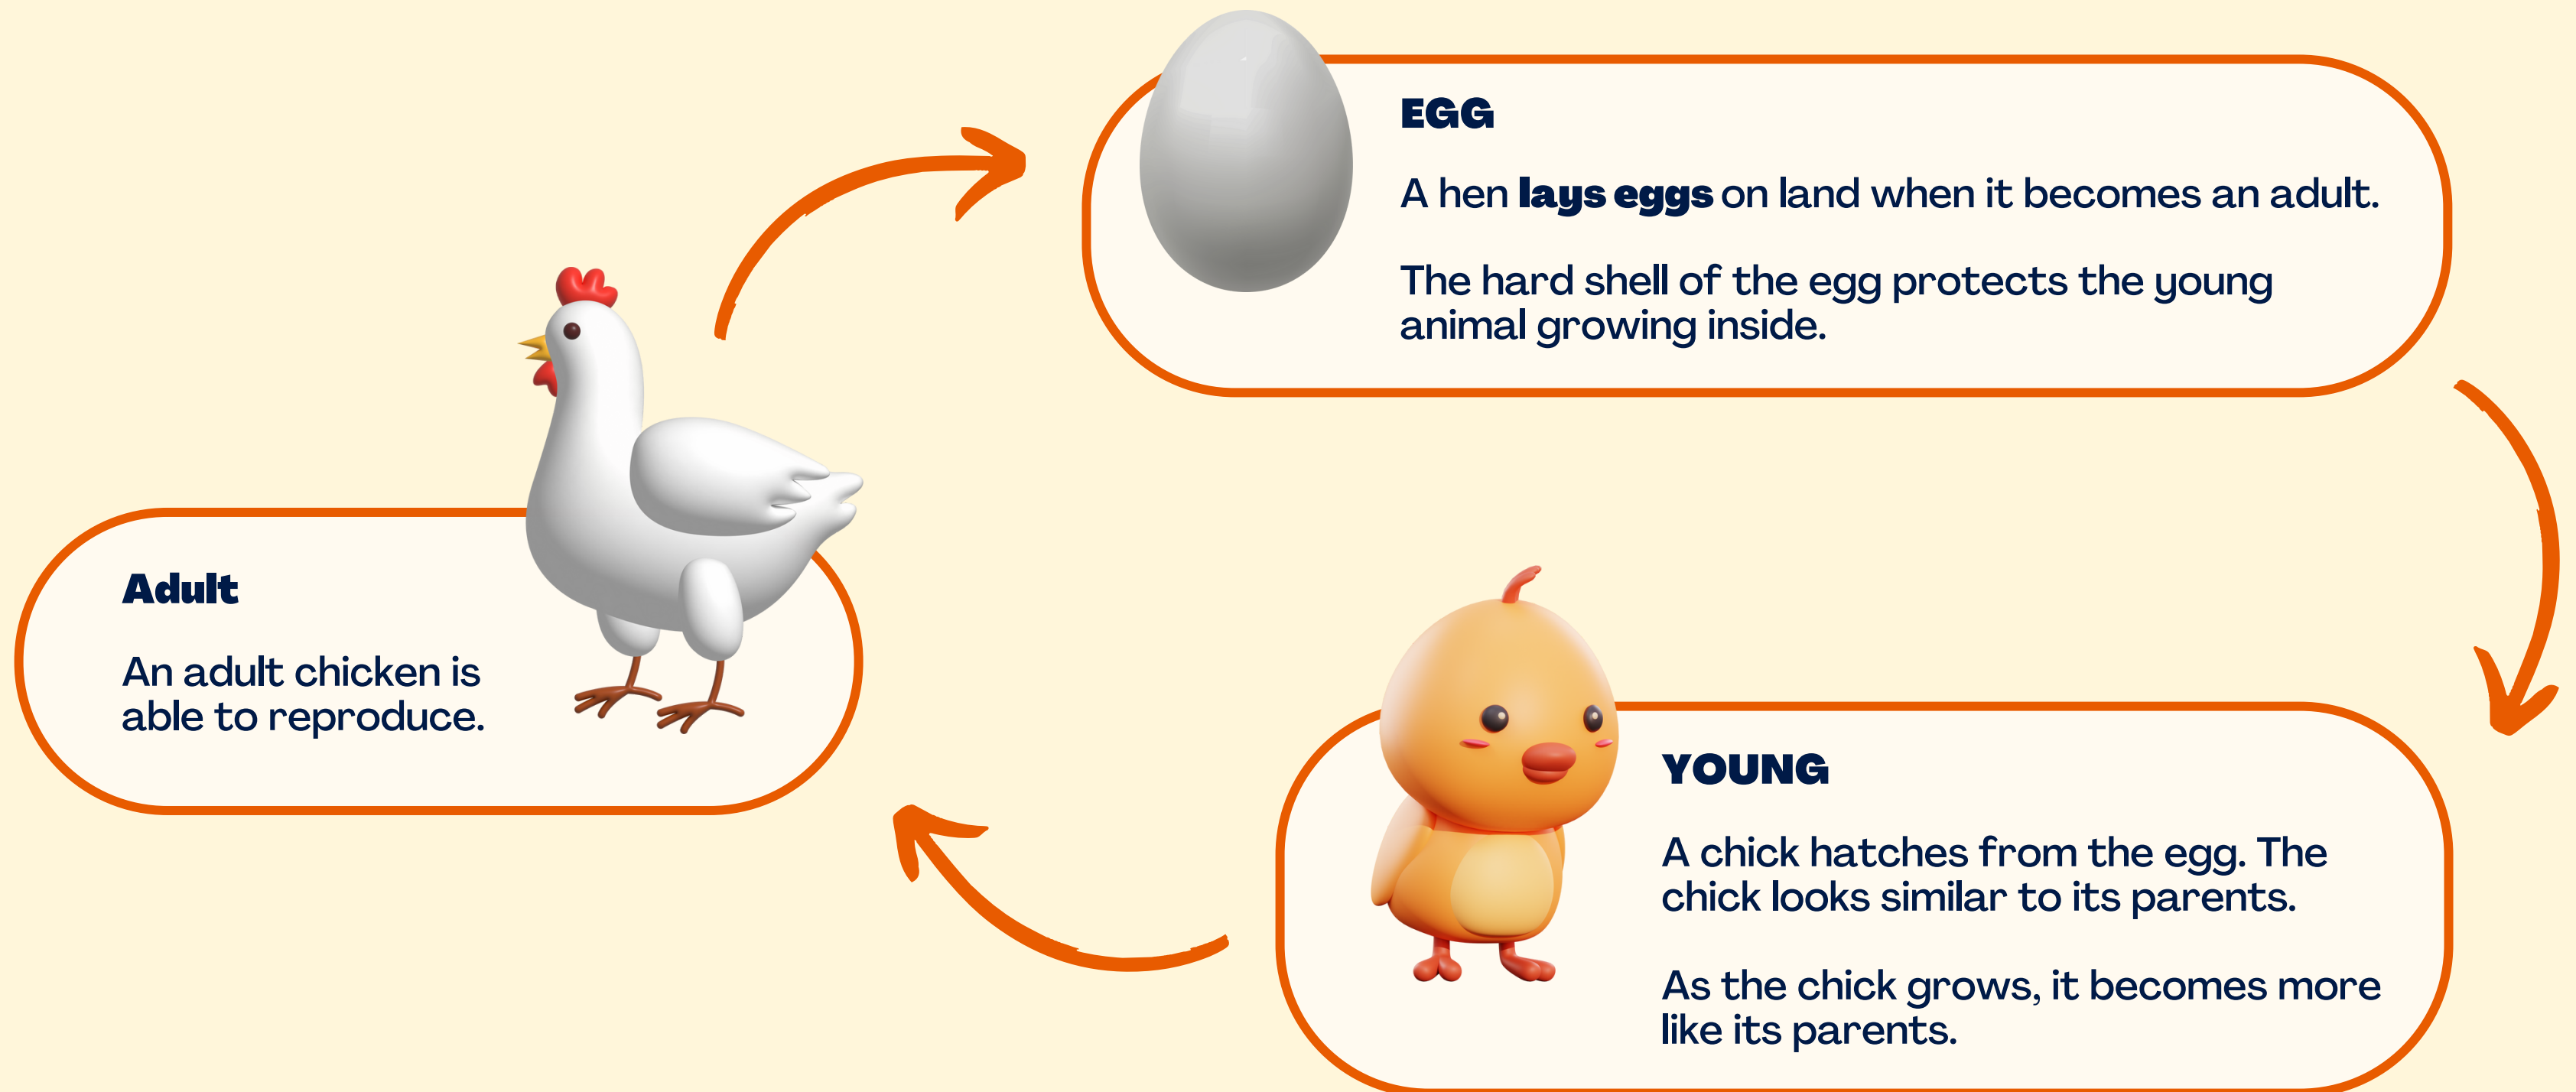

## Stages of the life cycle

- Different animals have **different stages** of growth and development.
- Some living things have **more stages** in their life cycle than others.

# Life Cycle of a Human

# Life Cycle of a Chicken

# Life Cycle of a Frog

## Frog

An adult frog does not have a tail or gills. It lives both on land and in water.

It breathes using its lungs when on land, and its skin when underwater.

## EGG

A female frog **lays** many **eggs** to ensure that some of its young can reach adulthood.

The eggs are laid in water and are surrounded by a **jelly-like covering**.

## TADPOLE

Tadpoles have **tails** and don't look like their parents.

Tadpoles **swim** in the water and **feed** on tiny plants. They **breathe** using their gills, like fish.

As they grow, they develop **legs**.

# Life Cycle of a Butterfly

## Butterfly

Once fully developed, it will break open its case and emerge as a **butterfly**.

The butterfly spreads and dries its **wings** before **flying** off.

## EGG

A female butterfly lays its eggs on a suitable plant.

This is to ensure that the young will be able to find food when they hatch from the eggs.

## LARVAE (CATERPILLAR)

The eggs hatch into **larvae**. (singular: larva) called **caterpillars**. It **feeds** on the leaves of the plant, eating a lot so that it can grow.

As it grows, it **moults** several times.

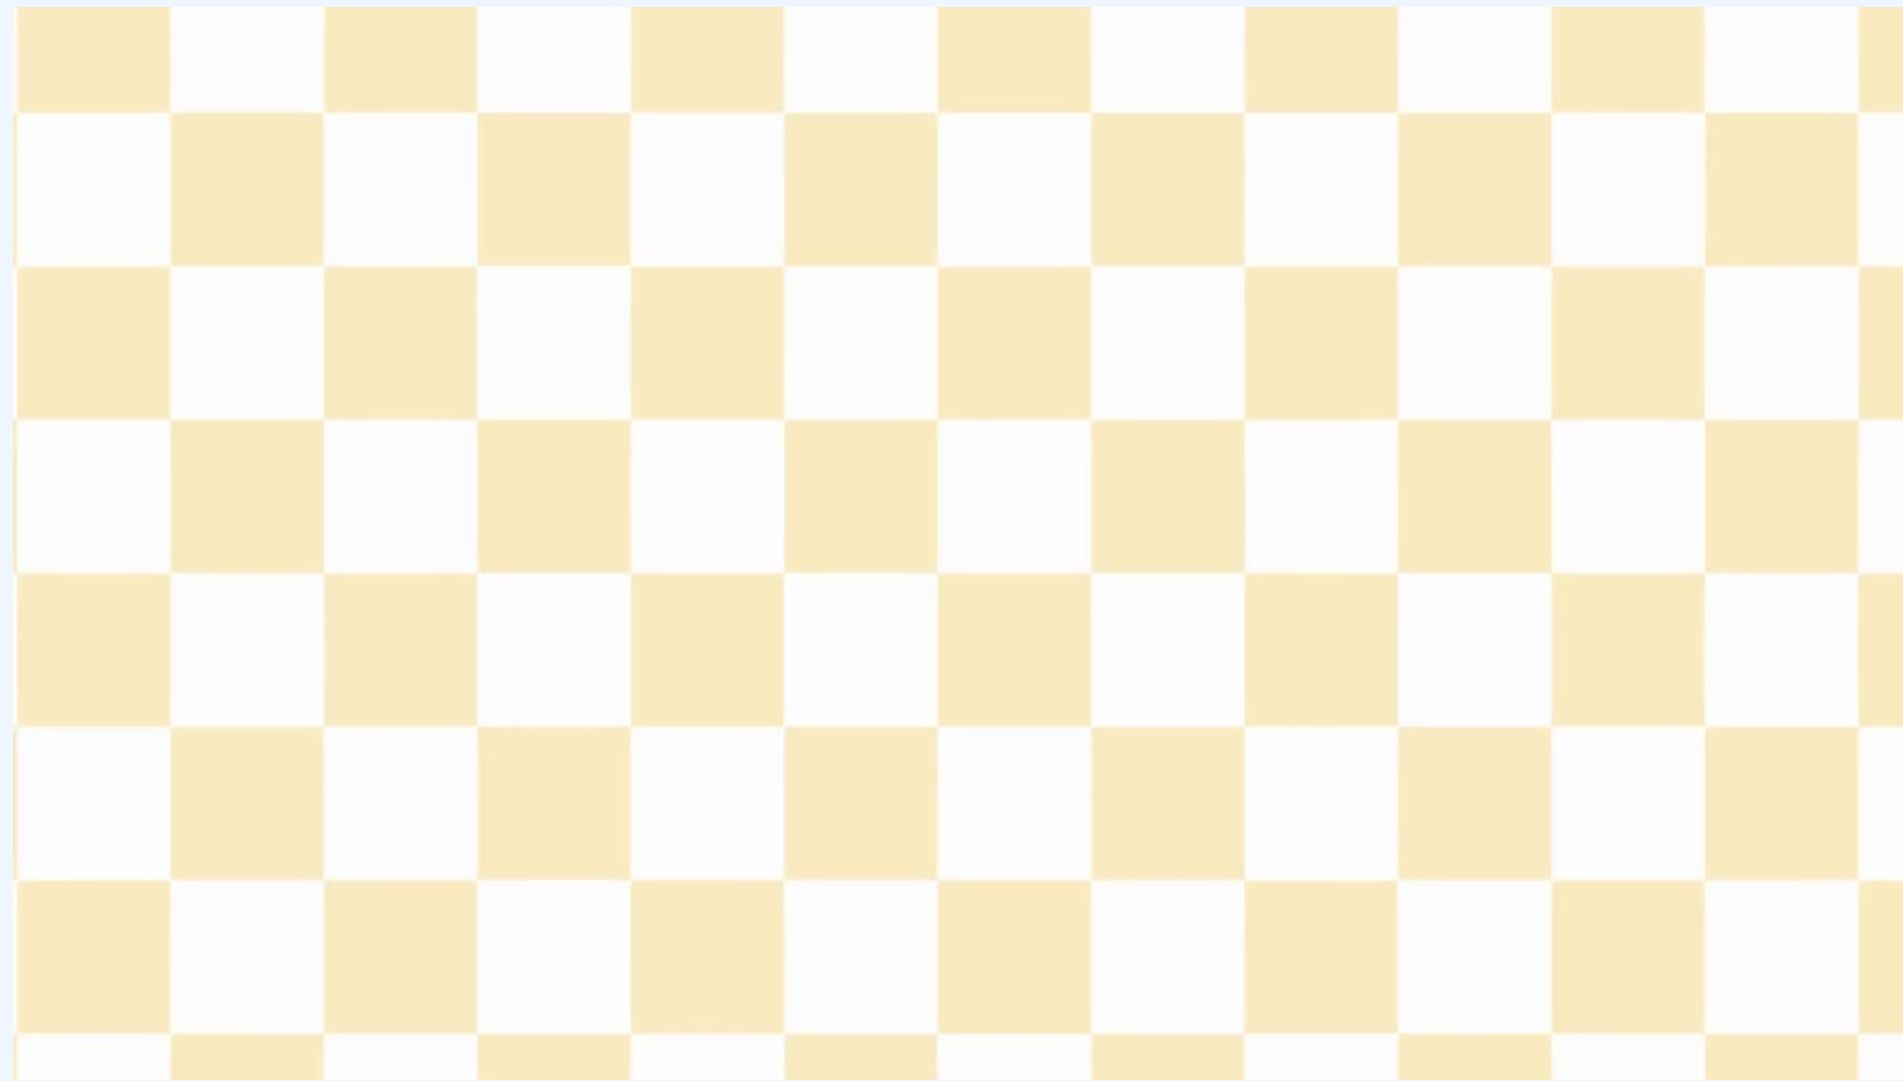

## PUPA

The caterpillar spins a case around its body and stays in it. It's now a **pupa** (singular: pupae).

During this stage, the pupa does not feed. The pupa **develops** inside the case.

# TOURNAMENT RULES

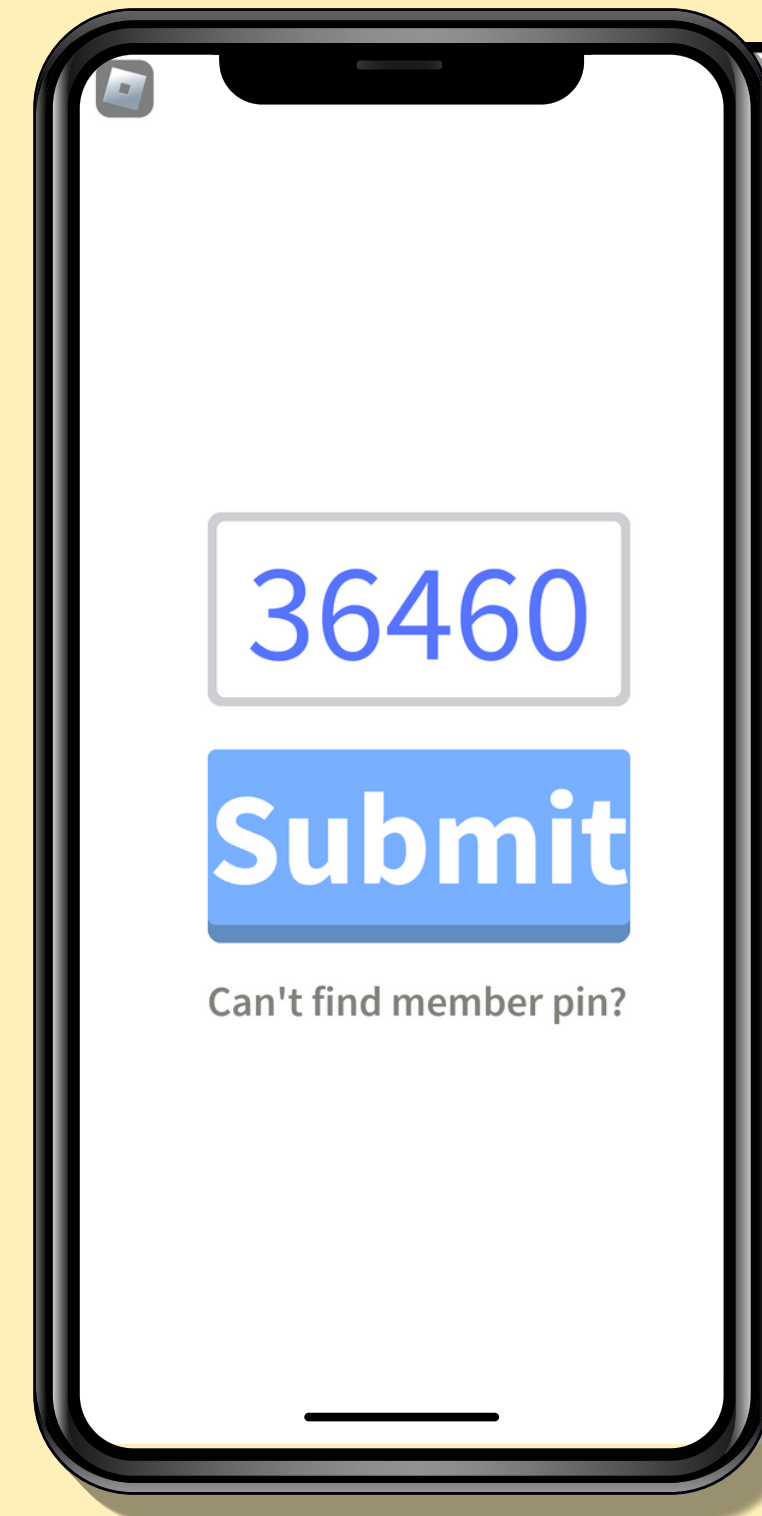

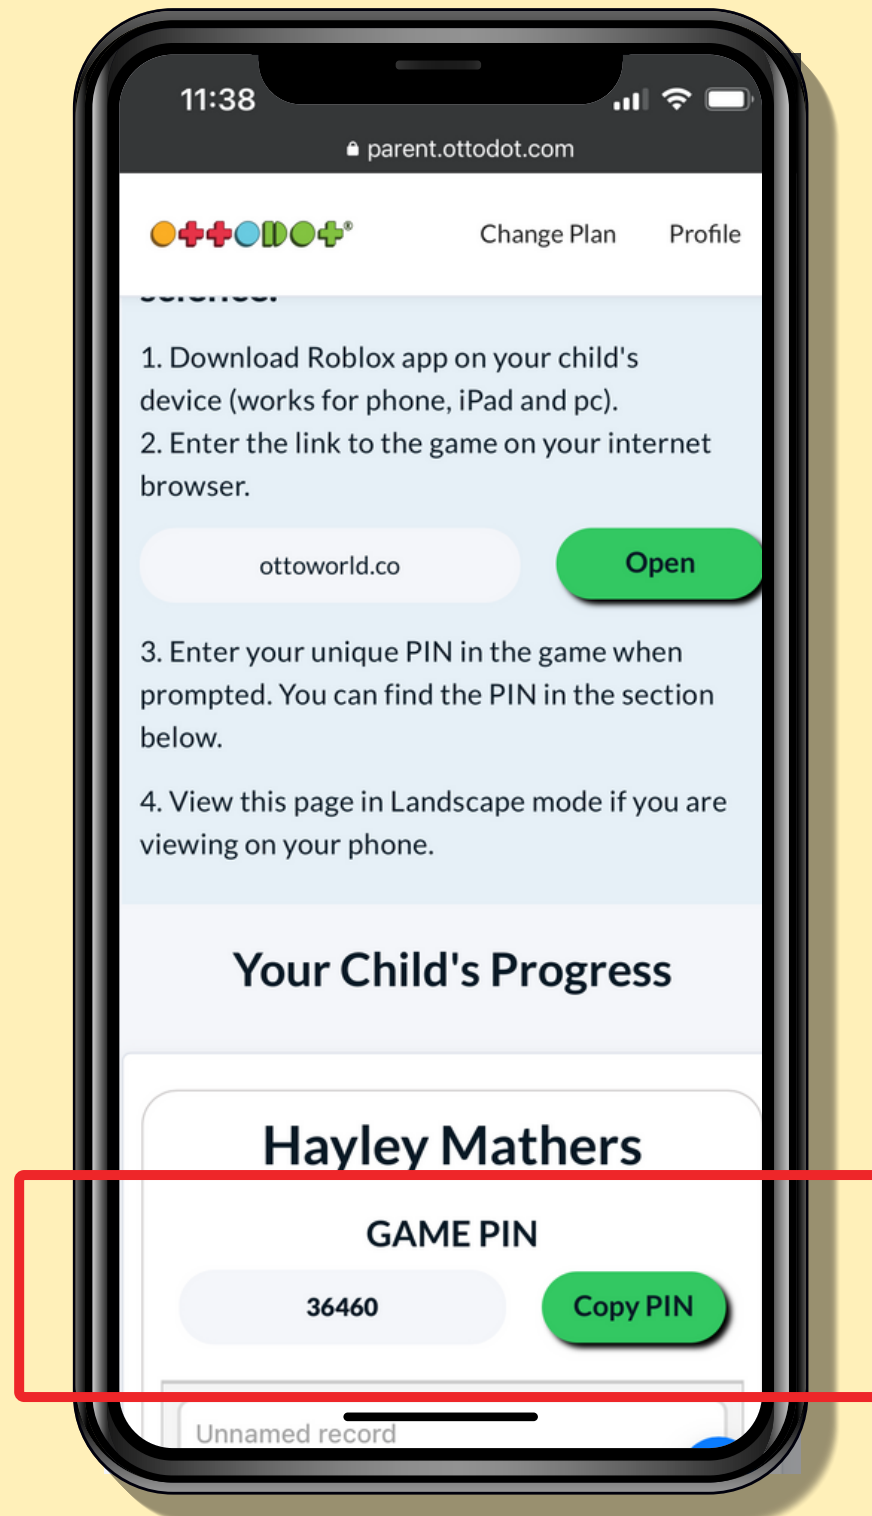

Try your best to finish the levels as fast as possible, and **get all 3 stars on each level** to get on the leaderboard

# 3 RULES

1. **Try your best**
2. **Improve and get better**
3. **Have fun**
